A COURT HOUSE.

A. G. Daykin Says the West Side May Get It.

ONE COUNTY COMMISSIONER.

HE IS SAID TO BE IN FAVOR OF THE PLAN.

The Western Improvement Association Recommends Mr. Daykin for Park Commissioner—The Boulevard Board Criticized.

A new court house for Cuyahoga county may be built on the West Side, according to a statement made by Al G. Daykin before the directors of the Western Improvement Association last evening. The directors were disposed to treat the proposition as a thing to amuse them, but Mr. Daykin insisted that he was serious. While he was expostulating with the directors and making an effort to convince them that he was in earnest an adjournment was taken, the subject will not be brought before the attention of the directors until the regular meeting in September. MR. DAYKIN'S ANNOUNCEMENT that a new court house was to be erected and that it was possible to get it for the West Side was made immediately after he had been recommended as a member of the Park Board to represent the West Side and secure all the improvements of a public nature he possibly could for that section of the city which lies west of the Cuyahoga River. He entered upon his duties immediately and suggested that a concerted effort be made to induce the County Commissioners to select a site for the new county court house on the west side of the river. "We have a majority of the townships on the west side of the river," said he, "and the court buildings on this side of the river would accommodate more people than if they were on the East Side."

The directors smiled. "I have talked with one of the commissioners about it," continued Mr. Daykin, "and he said that he favored the West Side, and I have been looking around for suitable sites." Then the directors laughed outright. "You may laugh all you please about it," continued Mr. Daykin, "but I want you to understand that I am serious." "Let's go home," said one of the directors, and the others followed his suggestion. After the meeting Mr. Daykin assured the reporters that he was in earnest when he spoke of a new court house for the West Side, and he did not want the matter treated in any other light. "The directors laughed when I presented the subject simply because it struck them so forcibly," said he, "but I know that we can get it over here."

IF WE ONLY MAKE

an effort. One of the commissioners has already told me that he wanted it built on this side of the river, and all we need do is to get another one of them to agree to it."

COMMERCIAL.

Tuesday, August 3-5 p. m.

Demand for best grade of baled hay, the grade designated as "choice timothy," is quite active and offerings now coming forward are quite light. Sales of this grade are, therefore, largely made at the highest quotation of \$11.00 per ton. Grades below the best, or especially below No. 1 timothy, are in no active request whatever—can only be sold by hard work at low prices. Best new hay coming forward in bales is selling at \$9.00 to \$10.00 per ton. About the same prices are being obtained for new hay in bulk.

The egg market, which, as already noted, has been inclined to go higher in keeping with advancing values elsewhere, is now quotable at another half cent advance, or at as high as 11½¢. Sales, therefore, of strictly fresh are at 11½¢. At this range of prices the market would undoubtedly be very firm, if not quotable at still higher figures, were it not that quite a few "hot weather eggs"—eggs gathered and shipped in the heat of the past few weeks—are still in market. As soon as they are out of market a still stronger upward tendency will undoubtedly appear.

A few features of the provision market have been marked up to-day. Quotations for lard are up an ½¢ and sales are now on the basis of 1½¢ per pound for city steam rendered and 3½¢ for choice kettle rendered in tierces. Short and long clear sides, smoked and unsmoked, and short fat backs are also up an ½¢ per pound.

DAIRY AND FARMYARD.

Butter—Creamery, Ohio and Western, choice, 11½¢; firsts, 11¼¢; Elgin or extras, 10½¢; dairy, strictly fancy, 11½¢; choice, 8½¢; store packed, No. 1, 7½¢; No. 2 or low grade, 6½¢; grease, 3½¢. members of the flint and green glass
workers' labor unions as a result of the
patent blowing machines to be intro-
duced at Ball Bros.' with the beginning
of next month and which will do the
work heretofore engaged in by hundreds
of men. The green glass workers have
been employed by this firm exclusively,
and in this organization there are no
pressers or machinists, as in the flint
workers' union, and the flints claim that
when the machines are placed in the
factory it will be necessary to put flint
workers in charge of them. If union-
made goods are produced. The green

A DIVISION OF THE TURKISH FLEET SAILS FOR CRETE.

ADMIRALS OF THE POWERS ACT.

THEY WILL PREVENT TURKISH TROOPS LANDING AT CANEA.

As the Governor of Crete Will Pay No Attention to the Order of the Powers' Representation—Is Expected.

Paris, August 3.—According to a dispatch received here to-day from Constantinople, a division of the Turkish fleet has been ordered to sail for Canea, Island of Crete.

If the statements contained in the Constantinople dispatch alluded to is correct, fresh trouble may be anticipated in the settlement of the Græco-Turkish peace preliminaries.

It has been reported for some time that the Turkish Government was contemplating landing additional Turkish troops in Crete, and on Thursday last the admirals in command of the foreign fleets in Cretean waters held a conference and decided to oppose the landing of any Turkish reinforcements in Crete.

They notified Ismael Bey, the Turkish civil governor, of the decision arrived at. But the Turkish Governor replied that he could not accept such a decision, apparently taking the ground that the Porte would persist in its intention to reinforce the Turkish garrison in Crete.

Yesterday evening, a dispatch from the Dardanelles late to-day announces that the second naval division of the Turkish fleet, consisting of seven warships, commanded by Admiral Sarrailh, has sailed for Canea.

HANGED WITH A HOSE.

A THIRTEEN-YEAR-OLD BOY COMMITTED SUICIDE AT AKRON—HE SLOWLY STRUGGLED TO DEATH.

AKRON, O., August 3.—George Young, the thirteen-year-old son of a respectable family of this city, committed suicide this morning by hanging himself in a rubber hose.

The determination of the lad to end his life was shown by the position in which the body was found.

The boy pulled up his feet and slowly struggled to death.

No cause has been ascertained why he took his life.

Later the Demented Woman Found in a Closet Lying Over the Perishable Deed.

St. Louis, August 4.—Mrs. Peter Hauptman, aged sixty years, old and feeble, wife of a wholesale cigar merchant of this city, was murdered yesterday afternoon by her insane daughter.

Who cut her parents' throat. William Hauptman, a son of the murdered woman, discovered the body lying in the Cleveland Gas Coal Company's making every effort to keep the mines going. They claim that all the Plum Creek miners are working, while the strikers say that not more than forty men are in the pit. The full force of that mine is 340 men. Before the camp was struck the output was from 120 to 140 cars a day.

This output, however, was about forty cars above the average when the other mines were working.

The output yesterday was thirty-nine cars. With twenty more men out to-day the output is not expected to exceed twenty cars. The complete closing of the mine may be expected in a very few days.

The march to Plum Creek mine was commenced at 1 o'clock this morning.
